

Course Outline

Accounting and Finance
School of Business & Economics
BLAW 2910 - **3.00** - Academic

Commercial Law

Rationale

GET analysis has identified that this course meets the Citizenship ILO criteria. See attached foci tool and notes under Educational Objectives/Outcomes.

Calendar Description

Students examine the legal environment in which businesses operate and how common law and different provincial and federal government statutes influence decision making. Topics include origins of Canadian law; resolving disputes and navigating the court system; tort law, contract law; sales of goods and consumer protection; methods of carrying on business; workplace law; property law; and creditor law.

Course Has Variable Hours: No

Credits: 3.00

Lecture Hours: 3.00

Seminar Hours: 0

Lab Hours: 0

Other Hours: 0

Clarify:

Total Hours: 3.00

Delivery Methods: (Face to Face)

Impact on Courses/Programs/Departments: Not applicable

Repeat Types: A - Once for credit (default)

Grading Methods: (S - Academic, Career Tech, UPrep)

Educational Objectives/Outcomes

1. Describe the basic origins of Canadian common law, equity, and statute law.
2. Diagram the system of British Columbia and Canadian courts.
3. Explain the differences between intentional and unintentional torts, particularly in a business context as well as the legal remedies available to successful plaintiffs.

4. Describe the elements that make a contract valid and enforceable, the ways in which a contract may be discharged, and the remedies available for breach of contract.
5. Discuss with examples the forms of business organizations and the advantages and disadvantages of each.
6. Apply rules from sale of goods legislation to determine when title to goods passes to a buyer.
7. Identify seller activities designed to drive up prices of goods or services, cause price discrimination or unduly lessen competition.
8. Explain how mortgages, conditional sale agreements and other security instruments protect creditor investments and creditors' rights upon default.
9. Describe estates and lesser interests in land under land titles legislation and the Torrens system.
10. Specify types of remedies available to a plaintiff under environmental common law cases and why legislation is required to address pollution causing more fundamental environmental damage.
11. Explain patents, trademarks, copyright and industrial design.
12. Describe the effect of contract law on the employer-employee relationship.
13. This course meets the Citizenship criteria. See attached foci tool demonstrating the match.
