Economics
School of Business & Economics
ECON 3990 - **3.00 - 6.00** - Academic

Selected Topics in Economics

Rationale

The name of the course is being changed to ECON 3990-Selected Topics in Economics to reflect recent changes to policy ED 2-1 Special Courses. The six-credit limit on special topics courses in the BBA was also removed. Faculty felt taking special topics courses should be encouraged to place greater focus on experiential learning. Currently SOBE has no limit on the number of directed studies credits that can be counted towards the BBA.

Calendar Description

The subject matter in this course varies from semester to semester depending upon the interests of faculty and students. Courses are taught by visiting professors to instill their unique perspectives or by regular faculty to address emerging topics in a discipline, share research or teaching interests, or test potential new courses. The added variety in the curriculum greatly enhances the student learning experience.
